ABOUT STL

Shaping the Learner SERVICES

Shaping the Learner (STL) is a group of powerful and influential South African Clinical and Community Psychologists, Educationists and Social Workers, spearheaded by Gerald Williamson, Carmen Joshua and Fairoza Brey. As a collective network, they have developed the company Shaping the Learner into a powerful service delivery unit that focuses on the areas of social, educational and community development. STL has been associated with other related national educational interests: PACE Careers, Kip McGrath Education Centres for children and young people with learning difficulties and Psychological Service Centres. The organisation has also been registered with the Services SETA and therefore offers credible and registered programmes in the area of training and development, primarily within the education sector.

what do we do?

We can:

Offer a range of training programmes, especially those suited for school-based interventions. In addition, we also offer research services, especially those done in communities anywhere in South Africa. One of our strong service areas are those that offer consultancy as well as development services (of any size) to any community social investment initiatives. We can take care of all the needs for our clients and remove the headache from the exercise. We therefore facilitate the branding experience on behalf of our clients.

Top 10 reasons to use STL

- | | |
|-----------------------|---|
| Quality | <ul style="list-style-type: none"> ① We are embedded locally, which translates into superior delivery. ① Our reliable service has been tested throughout South Africa, potential. ① We have guaranteed quality capacity to accommodate a number of projects without quality being compromised. |
| Cost | <ul style="list-style-type: none"> ① Our services has surpassed many of our competitors in our field of focus. ① We offer lower or competitive cost for our training and interventions. ① Our services and products can be implemented in many contexts. |
| Infrastructure | <ul style="list-style-type: none"> ① We plan and develop tailor-made interventions. ① Our system of interventions (research, training and csi) is simple yet sophisticated in that it allows you to immediately see results in most cases. We operate as per site location anywhere in South Africa. |
| Service | <ul style="list-style-type: none"> ① We do not have fancy back-end contracts with many twists and hidden costs. ① STL offers solid support for any of your research, training and community social investment needs. |

Direction of our services

"Every now and then, a technology or an idea comes along that is so profound, so powerful, so universal, that its impact changes everything. The printing press, the incandescent light, the automobile, manned flight. It doesn't happen often, but when it does, the world is changed forever."
DOUG GARR
